Great Victory Over Turks Eliminates Invasion of Egypt, Opens Door to Russ Entry Into Hungary, Ends Turk Invasion and Leaves Russ to Face Germans.

## ROUMANIA TO CAST HER LOT WITH ALLIES AT ANY MOMENT

Dare-devil Cossacks Have Surrounded Another Turkish Army Corps---French Making Progress in Alsace---Turning Point of War in East is Seen.

By Associated Press.

London, January 6.—The crushing blow the Russians appear to have dealt the Turks in the Caucasus, and the further advance of the French in Alsace, on the road to Muehlhausen, continue to hold the foreground in the war news today in the absence of any other important developments east or west.

It is felt in England that the reported rout of the Turkish invaders of the Caucasus, with the defeat of their plan to seize the Russian fortress at Kars, gives the Ottoman forces such a setback that the much discussed invasion of Egypt is now virtually out of the question.

At the same time the pressure on the Russians from the east has been so far relieved as to preclude any necessity of withdrawing Russian forces from the Polish and Galician fronts for service in the Caucasus.

Petrograd reports that the Turkish army defeated at Ardahan, forty miles northwest of Kars, which is distinct from the forces reported to have been crushed or captured at Sari Kamysh, was today completely surrounded and is being harassed by Russian cavalry and doomed to inevitable extermination.

It was added that the Turks were fighting with great bravery and determination, but against hopeless odds as the roads along which they sought to retreat were blocked by deep snows. This is the defeat of a Turkish army corps which Grand Duke Nicholas referred to yesterday in his message to General Joffre, commander-in-chief of the French forces.

This dispatch announced also the capitulation of the entire Turkish Ninth Army Corps at Sari Kamysh.

While there has been virtually no change to the west of Warsaw it is the opinion of British observers of events that the Russian General Staff is giving many indications of an intention to strike a heavy blow in Hungary.

With Bukowina occupied the time is ripe for an invasion of Transylvania, an eastern province of Hungary bordering on Roumania. Nearly 3,000,000 of the population of this territory are of Roumanian stock. According to a contention of the allies these people may be expected to seize the opportunity to throw off the rule of Austria and unite with Russia.

Roumania has not yet abandoned

her neutrality, but a warning has gone out to her reservists to hold themselves in readiness for service, and developments soon may be expected.

A dispatch from Paris states that developments "of the highest importance" are imminent in Roumania. A dozen French and British newspaper correspondents left Paris today for Roumania by way of Bulgaria.

## KILLS WIFE SHOOTS SELF

By Associated Press.

Akron, O., Jan. 6.—Charles W. Hyslop, aged 28, a railroad employee, early today shot and killed his wife, shot Joseph Schrader, a boarder at the same house, and then turned the revolver on himself, dying instantly. Schrader is not expected to live.

Boarders found all three bodies lying on the floor of the room.

## TO REOPEN OHIO MINES

By Associated Press.

Eastern Ohio coal operators, at a meeting here today decided to open their mines under the "open shop" plan. Striking miners who have been idle since April 1 last, will be given first opportunity to fill the jobs, under the scale offered by the operators.

If the miners refuse the offer of the operators it was said that their places in the mines will likely be filled by non-union men, who probably will be imported for that purpose. The operators do not plan to resume operations of their mines, under the new plan, for ten days or two weeks, it was stated.

## LODGE ATTACKS WILSON'S POLICY

By Associated Press.

Washington, Jan. 6.—Senator Lodge attacked President Wilson's Mexican policy in the Senate today, during a review of the Urgent Deficiency bill. The error of the administration's course he said, had begun with the refusal to recognize General Huerta on moral grounds rather than on the broader international grounds on which it should have been based.

## EPIDEMIC IN VERA CRUZ

By Associated Press.

Washington, Jan. 6.—Black smallpox has broken out at Vera Cruz and the tropical town is in the throes of an epidemic, American Consul Canada today reported to the State Department.

Carloads of dead and wounded from the battle of Puebla, were being brought in today.

The consul's only information from Carranza sources was that the Villa-Zapata troops have been defeated heavily.

## LACK FUNDS FOR DEFENSE

By Associated Press.

Washington, Jan. 6.—Chief results of last night's conference between Secretary Daniels and Garrison and Congressional leaders were made in a general statement today that the government's revenue during the coming year would not bear any extensive additions to the military establishment, but that next year the subject of appropriations for national defense will be considered.

## DEMME'S WILL NOT TRY TO BLOCK PROPER LEGISLATION

By Associated Press.

Columbus, Jan. 6.—Democratic minority leaders in the House and Senate today planned calling a caucus of their party followers early next week, to determine precisely what attitude shall be developed toward proposed Republican legislation.

They expect to discover general plans of the Republicans after the receipt of Governor-elect Willis' message, probably next Tuesday. The House met at 9 o'clock this morning to resume balloting for stenographers, pages, porters and attendants under the title of "assistant clerks" or "assistant sergeants-at-arms".

The Senate adjourned yesterday. Eighty-one employees were to be chosen, 49 in the House and 32 in the Senate.

According to minority leaders the Democrats will co-operate with the

## WOMEN AGAIN SEE WILSON

Washington, Jan. 6.—President Wilson today reiterated to a delegation of woman suffragists his previous announced position that equal franchises should be brought about through action by the states, rather than through a federal constitutional amendment.

Nearly 100 women from different parts of the country saw the President at the White House, to ask him to support the suffrage amendment, which goes to a vote in the House January 12.

## SAY PENROSE SPENT MILLIONS

Washington, Jan. 6.—Representatives Palmer and Rupley, of Pennsylvania, alleged before the Senate Elections Commission today that more than a million dollars was spent on behalf of Senator Penrose in his recent successful campaign for re-election.

## PANIC FOLLOWS FIRE IN NEW YORK SUBWAY

Entire Fire Department of New York City Called Out When Subway Train Catches Fire—Scores Overcome by Smoke and are Injured—Several Persons Reported Dead.

By Associated Press.

New York, January 6.—More than 100 persons were overcome by smoke, cut by flying glass, bruised and otherwise injured in a fire aboard a train in the subway at the height of the rush hour this morning.

In the panic and confusion which ensued police headquarters issued a report that 12 persons had lost their lives but this later proved to be unfounded, and only one known death was recorded.

The entire fire department of the city and all ambulances were summoned to the scene.

At 11 o'clock hundreds of half suffocated passengers were being rescued from subway stations.

The fact that scores of persons were unconscious led to the early report that many had been killed. Later Police Commissioner Woods and Fire Chief Kenlon announced, so far as they knew, there had been no fatalities.

A surgeon, attached to the poly-clinic hospital, reported that one in-

jured woman had died in an ambulance on her way to the hospital.

Two hundred persons in all, were taken to the polyclinic, the surgeon said, but as far as he knew, with this one exception, none had been fatally injured.

During the first excitement the authorities seriously considered blowing up sections of the street on either side of the scene of the accident to let fresh air into the tube. As it was gangs of men were set to work with flame blow pipes boring holes in the concrete, while others got to work with pick axes.

The fire chief said that when his men entered the two trains they found many of the passengers sitting in their seats unconscious, others lying in the aisles and everywhere evidences of a terrific panic. The floors were strewn with hats and torn clothing. Still other passengers were found lying on the ground besides the tracks. Practically every window was broken.

## SUIT FOR \$9,015,000 BUYS W. VA. COAL LANDS

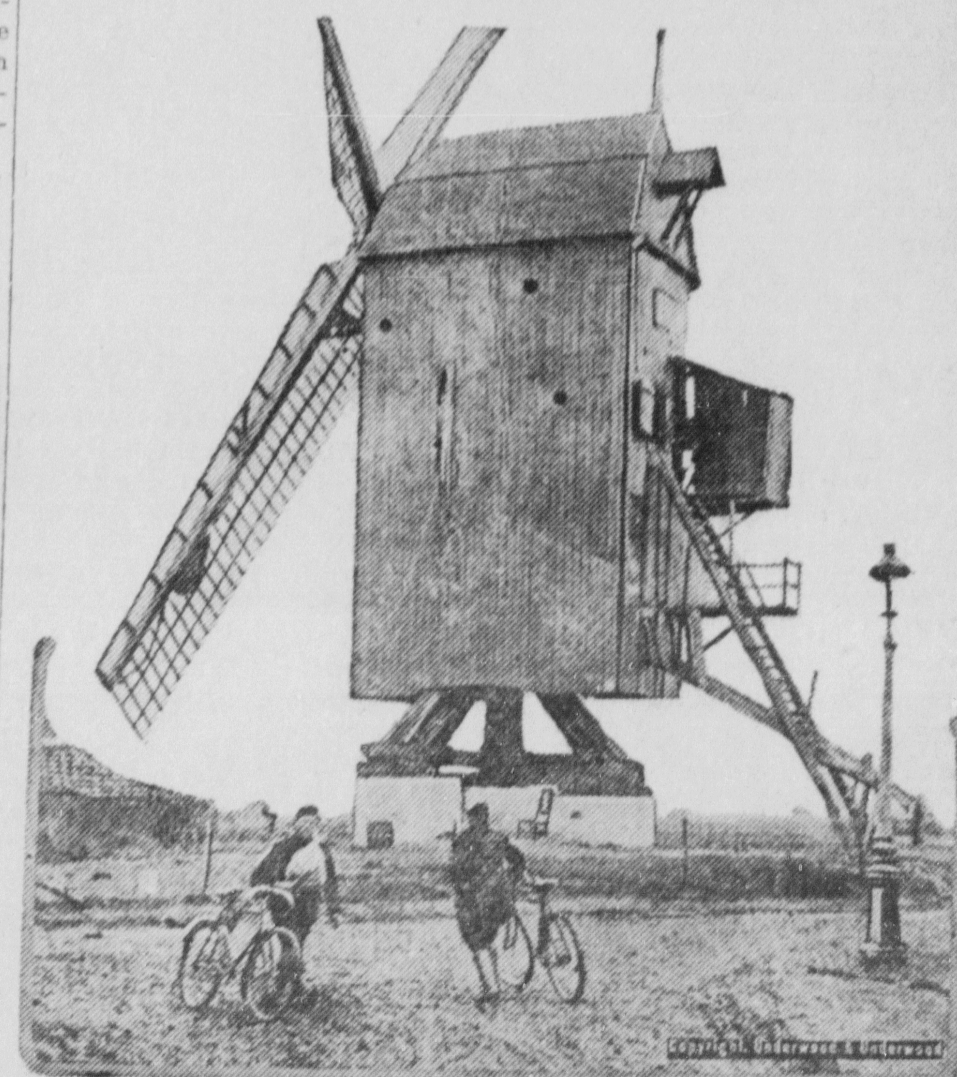

By Associated Press.

Columbus, O., Jan. 6.—Suit for \$9,015,000 was filed in the United States District court here late today by the government against the Capital City Dairy Company to recover this amount alleged to be due in payment of taxes on colored oleomargarine, manufactured in the last ten years. This suit also asks for appointment of a receiver for the old Capital City Dairy Company, a New

Huntington, W. Va., Jan. 6.—J. W. Johnson, general manager of the Loran Dock and Coal Company, today announced that his company has purchased 14,000 acres of coal land in Logan county, W. Va., the development of which will begin immediately.

He denied that the opening of the West Virginia operations means that his company intends to close its mines in the eastern Ohio district.

## WINDMILL USED AS A FORT

This windmill on the Nieuport-Dixmude road proved a very convenient shelter for a detail of German sharpshooters, whose purpose it was to pick off as many of the allied fighters as got within range of their guns. A detail of British soldiers rushed the improvised fort and captured it and the German marksmen.

## MONKEYS SAVE ENGLAND FROM MIGHTY DISASTER

How Pets Prevented Attempt to Blow Gibraltar Into Bits, Told by James Murphy, Abyssinian, Now Making Home Here—Great Fortress a Mammoth Hotel With Powerful Rifle in Each Room—Information Probably Never Before Made Public.

"Did you know that a few little monkeys prevented the Spaniards from blowing up the fortress of Gibraltar?" asked James Murphy, the remarkable "soldier of fortune" who is making his home in this city and who for two years was quartered in the famous fortress as an aide to General James Murphy, of British army fame.

Murphy then plunged into his story and following it disclosed a great

many interesting facts which the average citizen never before has had opportunity to obtain:

"A number of monkeys were kept on the rock as pets," said Murphy, "and one morning the soldiers noticed that the monkeys were acting very strangely; they would approach a certain spot and lay their head flat upon the rock and remain in that attitude for several moments, repeating the performance time after time. An officer's attention was called to the queer antics of the monkeys, and after watching them for a short time the officer commanded his men to place a sounding box over the spot where the monkeys appeared to listen."

"The sounding box revealed the astounding fact that noises of an unmistakable nature were coming up from far below—it was the sound of picks beating against the rock."

"Hurriedly an investigation was made and it was found that enemies were driving a tunnel beneath the great fortress with the evident intention of destroying it by exploding thousands of kegs of powder beneath it. A hole was drilled down ahead of the workers in the tunnel, and a heavy charge of powder blew up the tunnel in the faces of the workers, and wrecked the subterranean passageway."

"It was then that a full investigation was made and it was found that for years and years the Spaniards, from whom the guardian of the 'back door of the East' had been wrestled, had been driving a tunnel from a point more than a score of miles inland, to the rock of Gibraltar, with the evident intention of destroying it for all time. The tunnel branched off from a mine in Spain, but when the purpose of the tunnel was destroyed, the Spaniards filled in the tunnel at the Spanish end, and the nearest successful attempt ever made to shake John Bull from the all important fortress, became a thing of the past, and little information concerning the affair has ever reached the ears of the public." According to Murphy the attempt was made

in 1859, and he became familiar with the frustrated efforts of the Spaniards while one of Her Majesty's men, quartered on "the rock." Now a troupe of monkeys are on the rock at all times.

Other interesting facts concerning the famous fortress are given by Murphy as follows:

There are some 2,000 powerful guns on the rock. Five tiers of huge rifles frown above the water batteries at the foot. Each monster gun is concealed behind concrete doors, and the pressure of a lever transforms the face of the cliff into a huge fort, spiked with countless gun muzzles.

The rock is solid granite, with miles of subterranean passageways. Electric elevators afford a quick means of reaching all parts of the rock. The big rock is similar to a great hotel, with a huge gun in each bastion. There are three gun towers—"Gunrock" on the east; "Wolcraig" on the west, and "O'Hara" at the very apex. Guns can be fired in all directions, with special attention given to aeroplane attacks.

Monster hydraulic steel doors guard the magazine rooms. A broadside from the guns would endanger the rock itself. The fort guards, absolutely the narrow channel through which all large vessels must pass, and which is not far distant from the fortress.

5,000 to 6,000 soldiers are quartered upon the rock, and no strangers are permitted to remain after nightfall. Provisions for a five-year siege always may be found in the great storerooms.

England acquired the fortress from the Spaniards, in 1704, after Spain had wrested it from the Moors.

## COMPANY M WILL GO TO COLUMBUS

Company M, of this city, has been ordered to take part in the inaugural ceremonies which mark the induction into office of Governor-elect Willis, Monday, January 11th.

The company, under Captain O. E. Hardway, will go to Columbus on the early train, next Monday, while Major Rell G. Allen reports the previous day, and will take an active part in the ceremonies.

The entire Fourth regiment will take part in the inaugural ceremonies, Col. Hough, the next adjutant general, being at the head of the regiment.

Company M has added a number of new members recently, and Monday night three new enlistments were recorded.

## EVANGELISTIC MEETINGS MANY UNLICENSED CANINES IN CITY

The mid-winter campaign of Grace church begins next Sunday. The entire membership is being organized for the campaign, and much interest is already aroused. The pastor, Rev. F. E. Ross, will be his own evangelist. He will be assisted by various committees, whose duty it will be to help enlist the inactive church members and to aggressively work among the non-church going element of the city. There will be a large chorus choir, and the popular book, "Make Jesus King", will be used.

Among the striking features of the meetings will be the rivalry among the different groups to secure the largest possible attendance upon particular nights. A large section in the auditorium will be reserved each night, the group having charge that night to occupy it. The group chairmen are already at work to secure extra features for the opening services, and there is every indication that the campaign will prove a great blessing to Washington and Fayette county.

Complaint has been made that there are too many unlicensed dogs in the city, and canines of all colors and kinds may be seen upon the streets at most any hour, and most of the animals are said to be without the necessary license tag required by law.

A new license tag is issued by the Mayor each year, and the cost is \$1 each time, but since the expiration of the first year, the number of licenses issued has been comparatively small when the number of animals is taken into consideration.

The yelping animals are so common upon the streets that oldest inhabitants are reminded of the city when it was a village, and when dogs were allowed the freedom of the town.

### Governor Cox's Message

On Monday the message of Governor James M. Cox was sent to the General Assembly of Ohio.

Naturally the message was not as eagerly anticipated as is that one which the successor of the present chief executive of the state will deliver next Monday to the legislative body. The message of the retiring governor is more, necessarily, of a resume of the work of an outgoing administration rather than a declaration of intention for the future.

Both the outgoing executive and the incoming executive can, of course, give advice as to the future course which legislation should follow, but the advice of the incoming governor is always of more interest to the people than that of the outgoing governor. Especially is that true when the two message-sending officials are of different political faith.

The people of Ohio know what Governor Cox's administration has accomplished during the past two years and from that knowledge are in a position to divine with little uncertainty just what views he holds about what should be done in the future.

Nevertheless, Governor Cox has sounded a note of warning which clearly discloses that he is going to make good his promise to remain in the watch-tower during the next two years for the purpose of calling the attention of the people, should any attempt be made to destroy the humanitarian legislation enacted during the last administration. Not only that, but the budget has been prepared after a survey of the entire field of official activity and the estimate of the maximum expenditures fixed at least to the satisfaction of the outgoing administration.

All of which means in a nut-shell that any increase in the cost of government will be opposed vigorously.

The message of Governor Cox is not lacking in that positiveness of position which has characterized his administration. In leaving the governor's office he leaves behind no doubt as to his confidence in the work accomplished and no surmise as to his position in the future is necessary. He leaves the office and lays aside his authority with the same clear, unequivocal announcement of position as that which characterized his assumption of power.

His last official message as clearly defines his position as his first one. It is one in which the outgoing governor clearly discloses complete satisfaction with the work done and is at the same time a declaration to defend that work against unjust attack.

### Returned Prosperity

The price of wheat at the opening of the markets on Tuesday morning was six cents higher than it was at the opening of the markets on Saturday morning. Wheat was commanding in the open markets the splendid price of one dollar and thirty-seven cents a bushel when active business was commenced Tuesday morning.

The best part of the splendid rise in price is the cause. The big advance in price was not brought about by old time "cornering" methods or any other one of man's manipulation schemes which create a false demand for a time, to be invariably followed by a sudden drop in price, which means ruin to the many market gamblers who are on the wrong side of the game.

The present high price of wheat is caused by the strong probability of a shortage in wheat due to the war in European countries. The farmers of Europe are not planting wheat, but they are consuming as much as they ever did. The condition brought about by an increased demand and a decreased production naturally causes the price to go soaring skyward. The price of wheat is bound to remain high until the farmers in the wheat producing section of Europe return to the normal condition and begin again the work of raising wheat.

Men must have bread in times of war as well as in times of peace, and if they don't raise their own wheat they must buy it of the men who do raise it.

What is true of wheat is true of all the food products raised in the United States and true of all manufactured articles too. The European armies and the women and children of Europe must be clothed as well as fed, they must have utensils and implements and where else can they obtain all these necessities of life except from the nations whose people are at peace raising the food stuffs and producing the manufactured articles.

This enormous demand is bound to tax the resources of this nation during the war, and after the close of the war, until such time as European nations can right themselves and until nature is able to pay her compensation for the toil of men.

The returned—not returning—prosperity in this land is very much in evidence right now. No artificial means can push back the great natural demand which is being made upon the people of this nation.

Only a few weeks ago the optimistic Wall street newsboy was lonesome in his predictions of returning prosperity. Now there are millions who see the light.

### Poetry For Today

#### ACROSS THE SEA.

Across the sea I heard the groans  
Of nations in the intervals  
Of wind and wave. Their blood and bones  
Cried out in torture, crushed by thrones,  
And sucked by priestly cannibals.

I dreamed of Freedom slowly gained  
By martyr meekness, patience, faith,  
And lo! an athlete grimly stained  
With corded muscles battle strained,  
Shouting it on the fields of death.

I turn me, awe-struck, from the sight,  
Among the clamoring thousands mute;  
I only know that God is right,  
And that the children of the light  
Shall tread the darkness under foot.

I know the pent fire heaves its crust,  
That sultry skies the bolt will form  
To smite them clear; that Nature must  
The balance of her powers adjust,  
Though with the earthquake and the storm.

God reigns, and let the earth rejoice!  
I bow before His sterner plan,  
Dumb are the organs of my choice;  
He speaks in battle's stormy voice,  
His praise is in the wrath of man.

Yet, surely as He lives, the day  
Of peace He promised shall be ours,  
To fold the flags of war and lay  
Its sword and spear to rust away,  
And sow its ghastly fields with flowers.

—Whittier.

## EMPLOYEES ELECTED BY BOTH SIDES

Ohio Solons Deftly Sidestep the Merit Plan.

### MINORITY MAKES NO CONTEST

Way Pointed Out by State Civil Service Commission and the Majority Leaders Are Quick to Adopt It. Minor Employees to Be Known as Assistant Clerks and Assistant Sergeants-at-Arms.

Columbus, Jan. 6.—The state civil service commission, consisting of Samuel A. Hoskins, C. I. Brown, Democrats, and Charles H. Bryson, Bull Moose, stepped to the front and removed all obstacles in the way of the Republicans selecting minor employees of the senate and house without using the merit system.

Speaker Conover and a senate committee met with the civil service commission, with the result that the commission sent a formal communication to the two houses. The commission stated that under section 8 of the civil service law elected legislative officers were in the unclassified list and that if all employees were elected they also would be exempt. Also that the minor positions were of little importance and short duration and did not fit in with the rules of seniority, efficiency, etc., which applied to the classified service.

The commission suggested that stenographers and pages be classed as assistant clerks and custodians, doorkeepers, telephone attendants and porters be classed as assistant sergeants-at-arms.

The suggestion was followed and the erstwhile humble porter now will tie himself to a print shop and have the title assistant sergeant-at-arms put on his cards in display type.

The law prescribing that assistant clerks and sergeants-at-arms be paid \$5 a day will be amended and the employees will draw the present schedule, stenographers \$5, porters \$3.50, pages \$2.50.

In the house Democrats did not oppose the scheme of election and the resolution to proceed was adopted unanimously, but there was some seasawing in the senate. The minority was accorded a stenographer and a page in the house, two stenographers and a porter in the senate.

To make sure of no technical objection being raised, the rollcall was called for each election.

In the senate Mr. Howard presented the majority resolution, calling for the election of nine assistant clerks and twenty-three assistant sergeants-at-arms. This resolution was adopted and the election of employees proceeded.

The house elected Edward W. Hughes of Blanchester the assistant clerk, in distinction from the other so called assistants, and authorized the election of 10 additional clerks, 11 stenographers, 10 pages and 17 assistants to the sergeant-at-arms.

Investigation of state institutions is in prospect. Some of the members wish to have aired the increase of payrolls at some of the institutions, and there is a general desire to have all the facts regarding the need of more equipment to care for the state's insane and other wards.

## FRENCH MOVE ON TO RHINE

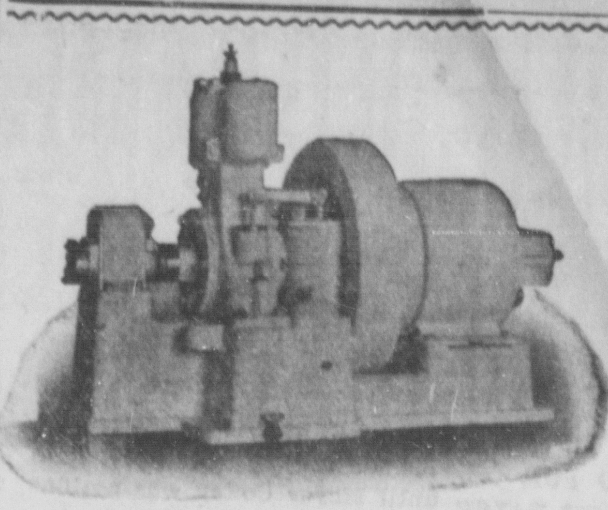

Paris, Jan. 6.—A dispatch from Thann, Alsace, says: "Continuous bayonet charges over ground strewn with bodies of comrades and foe mark the two-headed advance of the French toward the Rhine river through Alsace, where the bloodiest fighting of the war is taking place."

"The capture of Cernay, which would open the door to Muelhausen, which the French occupied for a short time at the beginning of the war, is aimed at by the victorious chasseurs, dashing eastward after occupying Steinbach."

"Farther north a second column is striking through the German defense in Alsace at a point near Orbey, fourteen miles to the west of Colmar. Meanwhile, fighting to the rear of this field of operations has resulted in the seizure by the French of a quarry situated at the crossing of the road from Rouvrois to St. Mihiel and that from Malzeville to St. Mihiel, as well as some neighboring trenches."

## SMOOT ASSAILS AN ITEM IN DEFICIENCY BILL

Says Immense Sum Was Paid For Rent of Transports Never Used.

Washington, June 6.—That \$1,200 a day was paid by the war department to private corporations for the rent of ships to be used as army transports which were never actually used at all, was the charge made by Senator Smoot of Utah in the senate, attacking an item of \$554,371 in the urgent deficiency appropriation bill.

"Not only that," said Senator Smoot, "but I happen to know that this item in this bill is not the total cost which the government is to be required to pay for these transports, some of which were never used at all, not a single day. In the general deficiency bill which will come before the senate a little later in the session, after the urgency deficiency bill has been disposed of and nearly forgotten, there will be an item, I am informed, of \$1,118,000 for this same purpose. I want to know why these two items were not put together and submitted to congress by the department."

## TO ASSIST SHIPPING

Washington, Jan. 6.—Preparations for governmental supervision of loading cargoes so that official certificates may be given as to the completeness and accuracy of the manifests of vessels which clear for European ports were made at the treasury department. Assistant Secretary Peters in a statement, made with the approval of Secretary Bryan and Secretary of Commerce Redfield, appealed to the business public to cooperate with the government in seeking to prevent the embarrassments to the shipping of the country which might be occasioned by isolated cases of false estimates.

## NO MORE ACHING LAME BACKS!

When it's hard to straighten up quickly and there's a "crick-in-your-back" and every joint and muscle in your body aches and you have that "don't care" feeling, ask your druggist for a bottle of Hoff's German Liniment. This famous liniment is made from the same formula as the doctors use with such success in Germany. It is pure and white as snow and it won't soil the finest clothes.

For 18 years Hoff's German Liniment has been the unequalled remedy for Rheumatism, Lame Back, Neuralgia, Sore Throat, Cold on the Lungs, Cold in the Head, Bruises, Sprains, Aching Joints, Sore Feet, Corns, Bunions, etc. It can be taken internally for Colds, Coughs, Croup, etc. It is powerful and penetrating. Fine for children. Nothing like it in existence for stopping pain. Made from white emulsion of camphor cream with other pure, harmless, effective ingredients. Everyone knows the value of camphor for relieving pain, but its great drawback is that it leaves the pores open. Hoff's German Liniment keeps the pores closed—keeps colds out.

Sold in handy bottles by all druggists—a quarter pint for a quarter; large family size, 50c. Results absolutely guaranteed, or druggist is authorized to return your money without argument. Avoid disappointment by not taking "something just as good."

# WORKS OLD, OLD GAME BUT COMES TO GRIEF

CHAS. ACTON IS HELD FOR OBTAINING MONEY UNDER FALSE PRETENSE—WORKS SYMPATHY GAME AND USED MAYOR'S NAME TO OBTAIN FUNDS—MAN HAS UNSAVORY REPUTATION IN THIS AND OTHER CITIES.

Charles Acton, whose name is a familiar one to the police in this city, Greenfield and Chillicothe, is confined in the county jail awaiting arraignment upon a charge which may result in a penitentiary sentence.

Acton, it will be recalled, was arrested several months ago upon a charge of horse stealing, but the charge was dismissed and the man and his wife were ordered to leave the city at once and never return. Acton has since come back to this city and Wednesday morning started out obtaining money under false pretense by representing that he had a family of five children, that all household furniture had been destroyed, leaving his family in destitute circumstances. The man is said to have represented that Mayor Coffey had given him a letter of introduction and one which urged citizens to aid him.

The man was arrested before he had obtained more than 60c on the

## SECTION OF WALL FALLS TO SIDEWALK

A large section of the brick cornice on the new Burke block, on South Fayette street, gave way and fell to the sidewalk with a crash, Wednesday morning, but fortunately no one was passing at the time, and no serious damage was done, other than that to the building itself.

It is supposed that the wall was not properly tied and that the rains weakened the 12-foot section of the wall, which projected from the face

## HOWARD WAIVES EXAMINATION AND IS HELD WITHOUT BOND

William Howard, charged with the murder of Mrs. Nannie Bird, was arraigned before Mayor Coffey, Tuesday evening and waived examination to the charge of murder in the first degree, whereupon he was remanded back to the county jail to await action by the grand jury.

No amount of bail was fixed by Mayor Coffey, and the man must remain in prison until action on the part of the next grand jury. It is probable that the January grand jury will be reconvened before being discharged.

Howard is taking his confinement in grim silence, refusing to discuss the crime of which he is charged. He has refused to make a statement of any kind, and when taken before Mayor Coffey spoke just as little as necessary. So far he has not retained an attorney.

strength of his misrepresentations. He had not been out but a short time until Mayor Coffey was notified, and he dispatched an officer out to arrest the fellow.

Officer Baughn made the arrest, locating Acton near the D. T. & I. depot.

On his way up to the mayor's office, Acton dropped the letter he had been displaying, but later Officer Baughn located the letter and it is in the hands of the chief of police. The letter reads:

"Charles Acton, having all of his household goods destroyed by fire on January 2, 1915, leaving him with a wife and five children in destitute circumstances, you are solicited to contribute any sum you may feel disposed to give toward his relief.

"Mr. Acton is known to his neighbors as a hard-working, honest man and is deserving of any help you may extend him in this, his hour of need."

Acton has a wife and two children, and, so far as known, has never lost any household goods by fire.

The man admitted that he was endeavoring to obtain 95c with which to reach Beaver, Pike county. However, he had more than that amount in his pocket. Mayor Coffey will endeavor to give the man the limit and put an end to his work in this city.

of the main wall about six or eight inches, and it tumbled outward. The sidewalk was roped off so that should more of the wall fall it would not strike pedestrians.

## DEATH CALLS MRS. THEO F. BROWN

A wide circle of friends learned with very deep regret, Wednesday morning of the death of Mrs. Theo. F. Brown, at the home of her only son, Mr. Orme Brown, at half-past nine o'clock.

Mrs. Brown has been ill since Christmas, her death the result of diabetes and uramic poisoning.

Since the death of her husband, three years ago, Mrs. Brown has made her home with her son, and received from him and his wife the most devoted care during her last illness.

A resident of this city for nearly 40 years, and interested in its various activities, possessing a warm hearted personality which expressed itself in many kindnesses, and a loyal church member, Mrs. Brown will be greatly missed in Washington. She had been a member of the M. E. church for 50 years, bringing her letter to Grace church of this city when she first became a resident of Washington.

Especially active in the work of Royal Chapter No. 29, O. E. S., Mrs. Brown formerly filled the position of Worthy Matron of this order with marked efficiency. She was also a valued member of the Browning club and a constant attendant until illness compelled her absence.

The funeral services will be held in Grace M. E. church Friday afternoon at 1:30 o'clock, under the auspices of the Eastern Star.

## DEATHS

### BURRIS.

Cal Burris, aged 53 years, died at the county infirmary Wednesday morning at five o'clock.

Mr. Burris was taken to the infirmary Tuesday, following an attack of paralysis. He was formerly from the Milledgeville neighborhood.

### SEXTON.

Samuel Sexton, aged 60 years, died Wednesday morning at the Cincinnati hospital.

The remains will be brought to this city Thursday morning by undertaker E. A. Klever, and taken to the home of his brother, Jacob Sexton on Western avenue.

Funeral services will be held Friday morning at 9:30 o'clock at the residence of the brother, Mr. Jacob Sexton on Western avenue. Burial in Bloomingburg cemetery.

## AGED MAN DIES

Gideon Bryant, aged 84 years, well known resident of the New Holland vicinity, died Wednesday morning at three o'clock, after a lengthy illness. He had a number of relatives in this city and county.

### HOW WOUNDS HEAL.

Nature's Processes Play a Large Part in the Operation.

Few people have any idea of the wonderful process by which wounds heal. Stitching, dressing, etc., are important operations, but none of them can make good the damage or replace the loss of tissue in a wound. This is the work of our good friends in the blood, the white corpuscles, the "scavengers," so called because they destroy disease germs.

When a wound is made, a bone broken, a nerve torn, etc., it is chiefly by these corpuscles finding their way out of the blood vessels into the surrounding tissues that the injuries by bullet or bayonet are repaired. The union of broken bones, nerves, skin, etc., is effected by the corpuscles finding their way into the coagulated blood which surrounds the injured parts.

They throw out what are called "processes," become fixed and join each other. A new tissue is thus formed, which becomes endowed with blood vessels. Fibers follow, and these serve to keep the torn tissues of the wound in what is surgically called "opposition."

In this tissue, in the case of a broken bone, bone salts are deposited; where nerves have been torn by a bullet nerve fibers grow, and so on. These fibers in the course of healing contract, and it is by that power of contraction that the edges of a wound are brought together and united.—Pearson's Weekly

## TITLE TO 2600 TO BE REGISTERED UNDER LAW

An application was filed in the Probate court late Tuesday evening by Humphrey Jones, as attorney for Charles Persinger, together with the titles, under the new land title registration law, to two large farms in this county owned by Mr. Persinger, one of some 1700 acres, lying near Johnsons Crossing in Wayne and Marion townships, and one of about 900 acres, located near Yankeetown in Madison township in this county and extending over into Monroe township in Pickaway county. All persons alleged to have any real or apparent interests in the land and all adjoining owners are made parties defendant, and will be served by registered mail with a copy of the published notice of the application, after the examiner of titles to whom the case has been referred, Hon. Thos. W. Marchant, has filed his report. If necessary to fix and establish lines and corners, a survey may be ordered by the court and permanent monuments planted by the county surveyor. The court will then, by its decree, settle and determine the titles and order them to be registered pursuant to the terms of its decree, and certificates of title will issue from the recorder's office accordingly. These certificates are incontestible and thereafter nothing of any kind can affect the titles until it is first entered upon the registered certificates in the recorder's office, and an inspection of these certificates will at a glance at any time in the future disclose the exact state of the titles.

### A FAMOUS DETECTIVE.

Vidocq Was a Notorious Thief Before He Joined the Police.

Modern detectives, as a rule, are fitted for their work by a long course of police training. But not so Vidocq, the great French detective, who was born in Aras in 1775. He began life as a baker and early became the terror of his companions by his athletic frame and violent disposition. At the same time he was a notorious thief, and after many disgraceful adventures he enlisted in the army.

In 1796 he returned to Paris with some money, which, however, he soon squandered. Next he was sentenced at Lille to eight years' hard labor for forgery, but repeatedly escaped, and in 1808 he became connected with the Paris police as a detective.

His previous career enabled him to render important services, and he was appointed chief of the safety brigade, chiefly composed of reformed convicts, which purged Paris of the many dangerous classes. In 1818 he received a full pardon, and his connection with this service lasted until about 1828, when he settled at St. Mandé as a paper manufacturer.

Soon after the revolution of 1830 he became a political detective, but with little success. In 1848 he was again employed under the republican government, but he died penniless in 1857. —London Standard.

### On the Safe Side.

Willie—When will the world come to an end, mamma? Mother—Nobody knows, dear Willie—Hadn't I best eat my candy cane at once and be on the safe side?—Chicago News.

Don't attempt to punish all your enemies at once. You can't do a large business with a small capital. Don't say "I told you so." Two to one you never said a word about it. Don't worry about another man's business. A little selfishness is sometimes commendable. Don't imagine that you can correct all the evils in the world. A grain of sand is not prominent in a desert. Don't mourn over fancied grievances. Bide your time and sorrow will come. Don't throw dust in your teacher's eyes. It will only injure the pupil. Don't worry about the crop. Keep cool and you will have enough. Don't borrow a coach to please your wife. Better make her a little sulky. Don't imagine that everything is weakening. Butter is strong in this market. Don't publish your acts of charity. The Lord will keep the account straight. Don't count meerschaums for a living. It is slumming by inches.—Mark Twain.

## TWO YOUTHFUL BURGLARS CONFESS ROBBING GROCERY

Carl Manns, 16, and Ernest Lindsey, 15, Burglarize Duffee Store Last Night, Are Arrested and Under "Third Degree" at Hands of Chief Moore Confess Their Guilt.

The grocery of J. W. Duffee on E. Court street was burglarized shortly before midnight Tuesday night, and the burglars—two mere children—are now confined in the county jail, having confessed to the crime.

These youthful burglars are Carl Manns, white, aged 16 years, and Ernest Lindsey, white, past 15 years of age, and they obtained 2 cents, two packages of "Bull Durham" and two plugs of "Star" tobacco.

In the arrest of the Mann boy the police believe they have nabbed one of the youths who have been burglarizing stores throughout the city. The Lindsey lad declares that it was the first time he had committed such a crime, and that he was led into the trouble by the other lad.

The Manns boy has served time at the Boys' Industrial School and has been in trouble time after time. He is regarded as one of the most clever youthful crooks in the city.

The pair of young burglars entered the store by way of the rear door, cutting a section of glass from the door and unlocking the padlock which secured the door.

After obtaining the few articles above mentioned the two boys started to make their get-away and were chased by Patrolman Bell, who saw them slinking away from the store. They succeeded in escaping, temporarily, but a short time later were picked up by Patrolman Baughn, as they were making their way through the C. H. & D. yards.

Lindsey apparently carried all of the stolen articles, but threw away a portion of the tobacco just before Baughn arrested them.

While in jail they agreed upon a story to tell the police, and each told the story, but Chief Moore took each in turn and when they came out from under the third degree they had made a clean breast of their crime, their falsehoods being beaten down before the sharp examination to which they were subjected at the hands of the Chief.

The boys will be given a hearing Thursday.

### In Social Circles

Mrs. Anda Henkle gave pleasurable entertainment to the Thursday Kensington club Wednesday afternoon.

The Cecilians held their regular session Tuesday afternoon with Mrs. Margaret Stitt, on South Main street. Mrs. Lida Craig opened the program with an interesting talk on the Courier Review.

There were two musical numbers, Mrs. Eva Craig playing exquisitely Elgar's "Salute D'Armour," and Mrs. Winnie Wilson Shoop, Mrs. Mary Goldsberry Burgett and Mrs. Lillie G. Davis, a beautiful vocal trio.

The annual election was held, resulting as follows: Mrs. Margaret Stitt, president; Mrs. Ida H. Pine, vice president; Miss Mazie Kessler, secretary; Miss Del Lanum, treasurer.

One of the most successful social affairs which has ever been given in the Daughters of Rebekah lodge, was the masquerade of Tuesday night, under the direction of the social session committee.

There were between a hundred and a hundred and fifty present and a large number of maskers.

The make-ups were excellent and contributed greatly to the evening's fun.

Miss Edith Blackman won the first prize on the prettiest costume; Miss Trevlon, the prize on the most comical costume. Miss Luella Riley's old monk costume was one of the cleverest of the masquerade.

The evening was spent in dancing, the old-fashioned quadrille being introduced and music furnished by the guests.

Refreshments were served. Mrs. Walter Hays was chairman of the Social Session committee.

Mrs. Chas. Cramblit entertained several of her friends at her home on West Elm street, Tuesday evening.

### SCHEME TRIED ON BAKER FAILS

Tuesday a man, said to be Chas. Acton, now in the county jail, walked into the Flowers Bakery and asked that four dozen loaves of bread be sent to a certain address, representing that he had a number of men working for him, and would be in and pay for the bread.

The proposition did not look good to the baker, so he refused to send the bread, whereupon the man hurriedly left the place.

### RISE OF THE KRUPPS.

The Great German Gun Works Started in a Small Iron Foundry.

The famous German armament firm of Krupp, which is the greatest industrial enterprise in the world in the hands of a private firm, had its beginning in a small iron foundry which Friedrich Krupp established in the early years of the last century.

For thirty years he had to cope with constant financial and other difficulties, and the reputation of Krupp, which now fills the world, is said to have originated through a block of steel which the firm showed at the London exhibition of 1851.

It was the rapid growth of Prussia into a military power of the first rank, however, followed by the unification of Germany and the consequent creation of the vast German army, which gave the firm its great opportunity, and ultimately its almost unexampled prosperity, as the manufacturers of artillery and ammunition.

Other powers, not only in Europe, but eventually in Asia and on the American continent, followed the German example in their attempts to perfect their armaments, and Krupp received a great part of their orders. The business representation of the great firm was extended throughout

the world and assumed the dimensions of the diplomatic service of a government.—London Answers.

### Boys as They Eat.

Jerome K. Jerome in one of his unconsciously sentimental but consciously clever essays remarks:

It is amusing to see boys eat, when you have not got to pay for it. Their idea of a square meal is a pound and a half of roast beef with five or six good sized potatoes (soapy ones preferred, as being more substantial), plenty of greens, and four thick slices of Yorkshire pudding, followed by a couple of currant dumplings, a few green apples, a pen'orth of nuts, half a dozen jumbles and a bottle of ginger beer. After that they play at horses. How they must despise us men, who require to sit quiet for a couple of hours after dining off a spoonful of clear soup and the wing of a chicken!

### Details of Elegance.

"Hiram," said Mrs. Cornstossel at the dinner party, "the table decorations were elegant, weren't they?"

"Yes," replied her husband as he pushed his finger bowl away. "There's only one little thing they forgot."

"What's that?"

"They didn't put any goldfish in the little aquariums."—Washington Star

## COLONEL GOETHALS TESTIFIES

Big Guns Guard the Works on Either  
Side of the Great Waterway and  
Field Howitzers Are in Readiness  
to Defend Canal in Case of Attack  
by Land—Sum of \$12,000,000 Al-  
ready Expended on Fortifications.

Washington, Jan. 6.—Three officers  
of the United States army testified  
before the house committee on ap-  
propriations that the Panama canal  
is well fortified, and that it is prac-  
tically impossible for a hostile fleet  
to destroy the works on either side  
of the waterway.

Testimony to this effect was given  
by Colonel Goethals, the builder of  
the canal; General Weaver, chief of  
coast artillery, and General Crozier,  
chief of ordnance.

It was brought out in the hearing  
that so far the government has ex-  
pended \$12,000,000 on the fortifica-  
tions of the canal and that \$2,000,000  
additional will be expended in the  
fiscal year that will be begun July 1  
next.

Colonel Goethals appeared before  
the committee primarily to discuss  
the estimates of the amount of money  
that will be needed to continue work  
on the canal zone in the new fiscal  
year. Generals Weaver and Crozier  
appeared to go over the estimates of  
the appropriations desired for forti-  
fications at Panama and elsewhere in  
the United States and its possessions.

It was brought out that the de-  
fenses of Panama consist of 14-inch,  
12-inch and 6-inch guns and one 16-  
inch gun which will be soon ready  
for action. In addition there are field  
howitzers to defend the canal in case  
of attacks by land.

Colonel Goethals was closely ques-

tioned relative to the recent slides in  
Culebra cut. He testified that since  
the initial slide in October, 1,500 cu-  
bic feet of rock and earth have been  
removed. These slides, according to  
Colonel Goethals, are still in pro-  
gress. He was unable to say how long  
they will continue.

## NEW YORK FIRM HIT BY THE WAR

New York, Jan. 6.—Unable to sur-  
vive conditions in the cotton market  
due to the war, the American Round  
Bale Press company, owner of fifty-  
nine gin plants distributed through-  
out every cotton growing state of the  
south, filed a petition in bankruptcy  
in the United States district court,  
giving liabilities of \$934,607 and as-  
sets the value of which has not yet  
been appraised. Paul Jones of Wall  
street, where the company also has  
its headquarters, was appointed re-  
ceiver.

## OPERATORS DECIDE TO REOPEN MINES

Cleveland, Jan. 6.—After deciding  
that at least some of the mines in  
the eastern Ohio coal field, where a  
strike of 15,000 miners has been on  
since the first of April last, should  
be operated—either by striking min-  
ers or other nonunion men—at a  
wage scale of 44.61 cents a ton, the  
coal operators at their meeting here  
delegated to a committee of seven of  
their number the task of formulating  
plans for action. This committee will  
ask the operators as a whole to in-  
dorse the plan it has formulated.

"We will welcome an investigation  
of the eastern Ohio coal strike," said  
the operators, when told that Sec-  
retary of Labor Wilson had appointed  
conciliators to attempt to settle the  
strike.

## OHIO HAPPENINGS

**Charge Against Physician.**  
Columbus, Jan. 6.—Dr. Albert G.  
Henry of North Baltimore, O., was  
brought before the state medical  
board to have his certificate to prac-  
tice revoked on a showing that he  
twice had been convicted of the ille-  
gal sale of narcotics. Investigation  
disclosed that his office was filled  
with narcotics. Dr. Henry has been  
a benefactor to his village. He gave  
\$175,000 to build an opera house and  
electric light plant. He is known ex-  
tensively for his benevolence.

**Mayer May Fire Board.**  
Toledo, Jan. 6.—The appeals court  
dissolved the injunction against May-  
or Keller in the civil service board  
ouster case. The judges unanimously  
decided that the commissioners had  
no right to prevent Keller, by injunc-  
tion, from removing them from office.  
The court, however, construes the  
statutes to mean that the mayor can  
lawfully act only after he has filed  
written charges against the commis-  
sioners and given them a hearing on  
those charges.

**Ohio's Winter Fair.**  
Columbus, Jan. 6.—The sum of \$25-  
000 is being spent by the state agri-  
cultural commission to make the win-  
ter fair at the state fair grounds a  
success. The fair starts Saturday,  
and will continue day and night until  
Friday evening of next week. It will  
consist of a poultry show, a corn dis-  
play, an apple show and a dairy show.

**Drys Make Clean Sweep.**  
Columbus, Jan. 6.—Canal Fulton, in  
Stark county with 1,000 population,  
voted dry by a majority of 86 votes.  
Liberty and Marion townships, rural  
districts in Hancock county, both  
voted dry. The dries also carried the  
town of Manchester, Adams county.

**Willis' Return to Ohio.**  
Washington, Jan. 6.—Governor  
elect Willis of Ohio will leave Wash-  
ington Friday evening for Columbus.

## GERMANS DROP DEADLY BOMBS

Berlin, Jan. 6.—German aviators  
made a raid on the British reserve  
ammunition stores at Coudslerque  
and dropped many explosive bombs.  
It was officially announced here that  
100 British soldiers had been killed  
or wounded by these bombs and vast  
quantities of ammunition destroyed.

## WASHINGTON PLAN MEETS WITH FAVOR

England, However, Will Not Waive  
Right of Search.

London, Jan. 6.—Although the for-  
eign office regards with favor the  
American government's plan of cer-  
tifying cargoes loaded under the di-  
rection of officials of the treasury de-  
partment and destined for European  
ports, it is said that England can not  
accept such certification as an abso-  
lute guaranty of the nature of the  
cargo in case any cause for suspicion  
arises after a vessel leaves America.

In other words, the right of search  
can not be waived because of the pos-  
sibility of shifting cargoes at sea and  
of the impossibility of having the  
treasury officer who issues the cer-  
tificate accompany the ship to her  
destination to guard against smug-  
glers who may carry copper or other  
contraband on small ships to be trans-  
ferred at sea.

The waiving of the right to search  
ships bearing contraband cargoes, in  
the opinion of several prominent Brit-  
ish officials, would be an invitation  
for smugglers to ply their trade,  
whereas the retention of the right  
would tend to prevent dishonesty.

This position is precisely the same  
as that taken by the foreign office  
concerning the certification of man-  
ifests of American cargoes by British  
consuls at American ports.

## FRENCH ACCOMPLISH SMALL VICTORIES

Paris, Jan. 6.—The latest official  
communiqué says: "During the night  
our troops have taken possession of  
a quarry situated at the junction of  
the road from Rouvrois to St. Mihiel  
with that from Mafey to St. Mihiel,  
as well as the neighboring trenches."

## ANOTHER SITUATION THAT MAY FACE ITALY

Rome, Jan. 6.—It has become  
known here that that Malissori tribes-  
men who revolted against the rule of  
Essad Pasha, Italy's friend, in Alba-  
nia, and who attacked Durazzo, are  
offered by Austrians. If this army  
should capture Durazzo, which is un-  
der Italian protection, the status of  
the Austrian officers would have to  
be determined by the Italian govern-  
ment, and it is entirely possible that  
the occupation of the city would be  
considered as a belligerent act by  
Austria.

## SUIT HAD THE EFFECT OF MAKING ACT SOLID

Columbus, Jan. 6.—There is noth-  
ing further upon which the opponents  
of the workmen's compensation law  
can hang a suit," declared Wallace  
Yaple, chairman of the state indus-  
trial commission, when he learned of  
the United States supreme court's  
decision upholding the Ohio act. "The  
law has been tested from every angle  
and has been found safe and solid."

## LIFE INSURANCE REFUSED

Ever notice how closely life insur-  
ance examiners look for symptoms of  
kidney diseases? They do so because  
weakened kidneys lead to many forms  
of dreadful life-shortening afflictions.  
If you have any symptoms like pain

# TURKISH FORCES UTTERLY ROUTED

Russians Win Decisive Victory  
In the Caucasus.

ENTIRE CORPS SURRENDERS

New Invasion of Hungary by the Russian Armies Reported to Be Well Under Way, the Objective Being Budapest — Germans Have Some Successes in Poland—Austrians Receive Reinforcements.

London, Jan. 6.—The Russian general staff still maintains official silence in regard to the new invasion of Hungary by the Russian armies, but from many points there comes information that the movement is well under way. A dispatch from Petrograd says that eight towns on the Hungarian plains have already been occupied and that 200,000 men are marching towards Budapest.

In central Poland the Germans are still keeping up a very strong pressure on the Russian lines along the Bzura and in particular at Rawa and at Borjow, where the fighting for the rival trenches, which are only a few yards apart, continues unabated. Berlin reports the fall of Borjow. The importance of the operations in this quarter is in no wise underestimated in Russia, but for the moment the conquest of Bukovina and the invasion of Hungary hold the public eye. The Germans still hold positions of great strength at Borjow and are resisting successfully thus far the attempts of the Russians to dislodge them by night and day.

Along the Pilica the Germans have also had some success, but Russian reinforcements are being sent against some troops that Marshal Von Hindenburg got across the river.

Apparently the Prussians and Bavarians sent to stiffen up the Austrians defending part of the Cracow front have reached their allotted positions. In Berlin great stress is laid upon the possibility of these troops breaking the Russian grip in this region and allowing the Austrians to divert forces to points farther south, where little opposition is encountered by the Russians at present. The Russian plan was evidently to send an army in between the Germans and Austrians north of Cracow and outflank both of them by a dividing movement.

A victory of the Russians in Caucasasia is announced officially in Petrograd. For several days a fierce conflict has been going on at Sarikamish, southwest of Kars, in Russian territory. The Ninth Turkish army corps was captured in its entirety, Petrograd announces, and the Turks lost heavily in killed and wounded and are now in retreat.

The Turkish column which took Ardahan two days ago has been driven out of that town, according to the Petrograd official dispatches, and is almost surrounded by the Russians, who hold the main roads. Another column, which crossed the frontier near Sari Kamysh, on the road to Kars, has suffered an even worse defeat, one of the two army corps which composed it being captured in its entirety.

## FORMER TURK OFFICIAL PRISONER OF RUSSIANS

Petrograd, Jan. 6.—A dispatch from Tiflis says the Russians have taken prisoner Izzet Pasha, former Turkish war minister.

### BAYONET CHARGES.

Hand to Hand Conflicts Are Rare Upon the Field of Battle.

In a talk about military methods in warfare General Stephen M. Weid, in discussing stories of bayonet charges, said:

"I do not know of a single case in our war where bayonets were actually crossed. I heard of one or two, but I never happened to see one.

"In the numerous charges made by our corps in the Wilderness campaign the only one we ever made successfully was on the 17th of June. One division had already charged and been repulsed. Our division was then ordered to make a charge across a plain some 200 yards wide. Colonel Gould had command of the division, which placed the brigade in my hands.

"Before charging the men were ordered to remove the caps from their guns and when they did charge were told to let it like blazes, which they did. In almost no time we were over the 200 yards, subjected to a storm of shell and cannister and only one volley from the infantry in the enemy's trenches. One-half of the men in our regiment were lost in this charge.

"Here was a case where you would suppose we might have crossed bayonets. On the contrary, the Confederates fled, the same as we would have done had we been attacked. We captured their knapsacks and everything they had in the trenches just as they were."—Exchange.

### Queer Pronunciations.

There are many names of places in England that puzzle the stranger. Happisburgh, in Norfolk, for instance, is pronounced "Hazeboro," Abergavenny simply drops a syllable and becomes "Abergenny," and it is alleged that St. Neots sounds more like "Snoots" than anything else. Cirencester seems to vary from "Sister" to "Sizeter." In Suffolk Waidmard is "Wunnerful" and Chelmsdon "Chimston," while in the adjoining county of Norfolk Hunstanton is "Hunston," and in the west country Badgworthy is "Badgery" and Cornwood "Kernood." Huntingdonshire claims the purest English, but they call Papworth "Parpor." And not far from there a motorist turned upon a rough road and asked the intelligent laborers where it would take him. "That road," said the honest countryman, wiping his brow, "will take you to 'El, sir." The courageous motorist went on and found Ellsworth, which is pronounced "Elser."—Manchester Guardian.

## TRAFFIC IN PASSPORTS

New York, Jan. 6.—While counsel  
for Karl Ruroede, the former employe  
of a German shipping firm here who  
is charged with conspiring to secure  
fraudulent American passports for  
Germans who wished to go home to  
fight, was vainly trying to secure Ru-  
roede's release on a writ of habeas  
corpus, the agents of the department  
of justice were investigating an en-  
tirely new story of passport frauds.  
A man whose identity is not re-  
vealed informed the department of  
justice that he had sold his pass-  
port—he is a citizen of a neutral Eu-  
ropean country—and that he knew of  
the sale of at least fifty other pass-  
ports, all issued by neutral countries  
other than the United States. He  
said that the traffic was being con-  
ducted on what he believed to be a  
large scale here in New York and  
that a German official was furnishing  
the funds.

## Satisfied Customers

### Our Best Advertisement

We do a great deal of advertising in various ways, but we believe that the most favorable publicity which we receive is through the medium of a "satisfied customer." Such customers talk about us to other prospective customers and this constitutes "advertising by word of mouth" and is most effective.

Besides providing the very best of service, our prices are as low as right quality can be had for anywhere.

If we have not had the pleasure of serving you, we should like to add you to our list of "satisfied customers."
